### **Work Experience**

#### **NewLIST Media, LLC., Project Founder, 2014-Present**

A highly scalable, enterprise-class, hyper-local business and product marketing search platform.

- Architected and developed the core technology stack within AWS.

- Current AWS components include: VPC, EC2, S3, SES, Route53 DNS, Lambda Microservices, CloudWatch, Geo Location and Mapping, Elastic Beanstalk, and related services.
- A fully-complaint PCI multi-tenant SaaS application using hourly subscription recurring billing.

**Narware Technologies, LLC., Application Architect / Lead Developer, 2021-2022**

A SaaS AWS cloud application for enhancing webinar sell-through.

- Planned, developed, and built the core of Narware’s SaaS cloud application.
- Managed domestic and offshore team members within an Agile SCRUM environment.
- Acted as project manager; wrote user stores and documentation; authored Figma wireframes.
- API integration with Sales Force, Zoom and other webinar providers.

**WebTigers, Project Founder, 2020-Present**

TIGER™ is a fully functional baseline SaaS application in a box, superior to Laravel Forge.

- Built on the most common LAMP technology stack.
- Multi-tenant. Multi-lingual. PCI / HIPAA compliant security architecture.

**The Walt Disney Company, Software Engineer / Senior Developer, 2016-2020**

Built and maintained over a dozen core applications for Disney’s Travel Trade group.

- Built and maintained numerous applications as multi-user, multi-tenant applications.
- Assisted product managers; requirements gathering; documentation; wrote user stories.
- Integrated applications with numerous internal and external APIs.
- Built a reusable UI catalog of components for the team to maintain a consistent UX.

**RightBrain Media, Inc., Senior Developer, 2015-2016**

Web agency building client applications as a senior developer using various technology stacks.

**Sprint, Senior Developer, 2015**

Elite web applications team developing internal applications for senior executive staff.

**Dell Services, Enterprise Car Share, 2013-2014**

Contracted to Enterprise Holdings to build out new features for their Car Share platform.

**Advent Health, CentraCare, 2009-2013**

Senior developer building HIPAA-compliant payment and scheduling services for urgent care clinics.

**M2 Systems, 2007-2009**

UI developer creating interfaces for credit card and cash card creation and management.

**AAA National Offices, 2006-2007**

Graphic Designer and UI / UX developer for travel booking including hotels, car rental, air, and cruise.

**Education**

**Kinman Business University**

*Business, Accounting, Computer Programming, Business Law, and Management.*

**Wenatchee High**

*Accounting, Computers Science, Electronics, and Multimedia Graphic Design*

## Code & Project References
